CHICAGO--(BUSINESS WIRE)--May 7, 2026-- Xeris Biopharma Holdings, Inc. (Nasdaq: XERS), a fast-growing biopharmaceutical company committed to improving patient lives by developing and commercializing innovative products across a range of therapies, today announced financial results for the first quarter ended March 31, 2026.

"We are thrilled with our outstanding start to 2026, delivering first quarter net product revenue growth of 43%, reflecting the successful execution of our strategy," said John Shannon, CEO. "Recorlev was the standout performer, with net revenue nearly doubling year-over-year, driven by growth across our patient base and increased awareness across the prescriber base. Also in the quarter, we successfully completed the expansion of our commercial team, and we expect the impact of these targeted investments to become more evident in the second half of 2026 and beyond."

Shannon continued, "Looking ahead, we remain confident in our ability to deliver on our full-year financial targets. Recorlev's strong Q1 and continued momentum gives us the confidence to raise the bottom end of our full year 2026 total revenue guidance. Our updated guidance of \$380 million to \$390 million represents more than 30% growth at the midpoint. Beyond our commercial execution, 2026 represents a pivotal year for our pipeline, with the anticipated Phase 3 initiation of XP-8121 later in the year marking a significant value creation inflection point. Our strong financial foundation enables us to advance these strategic priorities while creating sustainable long-term value for shareholders."
