Cost of goods sold increased by \$1.5 million or 43% and \$4.0 million or 43% for the three and twelve months ended December 31, 2021, respectively, compared to December 31, 2020. The increases were due to increased sales, primarily offset by lower excess and obsolete.

**Selling, general and administrative expenses** increased by \$36.2 million or 201% and \$52.0 million or 71% for the three- and twelve-months ending December 31, 2021, respectively, compared to December 31, 2020. The increases are primarily driven by costs associated with the Strongbridge acquisition of approximately \$18.3 million and \$24.4 million for the three-and twelve-months ending, respectively. Additionally, increases in sales force and commercial related expenses accounted for approximately \$15.7 million and \$16.8 million for the three- and twelve-months ending, respectively.

- Cash flow breakeven by year-end 2023, which assumes performance is consistent with annual net product revenues guidance
